See attached.

We should probably provide them with a POC and let them know we

- a. Would they like to be a reviewer of more developed drafts of the RoC monographs? Yes
- b. Would they like to be informed about the progress regarding development of draft RoC monographs or reviews?
Yes
- c. Please identify any staff within your agency with specific scientific expertise on any of the substances and provide their contact information. Stan Barone (as POC for now)

Tala,
Any thoughts from OPPT?
Thanks.

Team-
OP was surprised by our lack of response here.
Can OPP and OPPT both confirm:

- 1- That we have no ongoing research related to any of the substances in table 1 or table 2
- 2- For this one, they ask if we have interest in any of the substances.

Deliberative Process / Ex. 5

A response by COB Tuesday would be helpful. the lists are short.

Thanks,
Nancy

Re: NTP Report on Carcinogens (RoC): Agency input requested on chemical candidates for review

All,

- Please provide relevant input for your program **by May 17th, 2019** for OCSPS IO review (NTP's original due date was extended).
- Consider the attached nominations Tables 1 and 2 as well as the questions below in preparing your response.

- NTP is selecting substances for formal review;
- NTP acknowledges that agencies may have commented on some of these chemicals in the past
- The attachment contains two tables and a list of questions
 - Table 1 lists substances that have been newly identified
 - Table 2 lists substances or classes of substances that are currently under consideration for review for the RoC (<https://ntp.niehs.nih.gov/pubhealth/roc/noms/index.html#P>).
- Questions (extracted from attachment):

1. Does your agency have any ongoing research or regulatory activities related to these substances?
 - a. If so, please identify: (1) the types of activities; (2) any databases, websites, or other agency resources for obtaining information on human exposure, cancer or toxicity studies, and/or regulations; and (3) any scientific or policy issues.
2. Do members of your staff have an interest in any of these substances? If so, please identify their level of interest with regard to:

- a. Would they like to be part of an evaluation team and provide ongoing input at various stages of the project, such as (1) reviewing the protocol (methods), (2) participating in working groups to evaluate key issues, or (3) reviewing early drafts (or specific section) of RoC monograph?
 - b. Would they like to be a reviewer of more developed drafts of the RoC monographs?
 - c. Would they like to be informed about the progress regarding development of draft RoC monographs or reviews?
 - d. Please identify any staff within your agency with specific scientific expertise on any of the substances and provide their contact information.
3. Does your agency have any concerns should NTP select any of these substances for RoC review? If yes, please identify the substance and the reason(s) for concern.

Thanks,
Karen

Subject: Agency input sought on substances under consideration for review for future editions of the NTP Report on Carcinogens

Sent on behalf of Dr. Mary Wolfe

Dear NTP Agency Points of Contact:

The attached information from the Office of the Report on Carcinogens, Division of NTP at NIEHS seeks input from your agency regarding substances under consideration for review for future editions of the Report on Carcinogens (RoC). Specific questions for your input are provided on page 1 followed by two tables:

- Table 1 lists substances that have been newly identified
- Table 2 lists substances or classes of substances that are currently under consideration for review for the RoC
(<https://ntp.niehs.nih.gov/pubhealth/roc/noms/index.html#P>).

Please let us know if you have any questions or if you'd like to schedule a conference call to discuss any of the substances. Please send your agency's input to Anna Lee Mosley (annalee.mosley@nih.gov) by **COB May 10, 2019**. Agencies' comments on these substances will not be made public.

Thank you in advance for your assistance.

Mary
